

9.00 - 10.00	<p><b>Greenaway Memorial Lecture</b>                  Roy Pounder, Royal College of Physicians, UK  <i>Learning from experience – what happened when an iconoclast took over the NHS for ten years</i>                  Chair: Prof Nip Thomson</p>			
10.00 – 10.30	<p>MORNING TEA                  Trade Exhibition (including Speakers' Corner)</p>			
10.30 – 12.00	<p><b>Are physicians mere technicians?</b>                  Presented by the History of Medicine Library</p> <p>The History of Medicine Library has organised this session as a way to contribute to philosophical debate in the College. The goal of the session is to explore ideas around professionalism: what it means to be a physician, the role of technical skills, whether the physician of the future needs to be a technocrat or a healer, and what all these issues mean for the direction of physician training and assessment in the future.</p> <p>Panel: Prof Stephen Leeder (Moderator), Dr Thomas Kotsimbos, Prof Jill Sewell, Dr Robert Lodge and Prof Ian Meredith</p> <p>Facilitator: Prof Geoffrey Metz</p>	<p><b>Trainees' Forum - Planning your career: insight and advice from clinical leaders</b></p> <p>The RACP Trainees' Committee invites trainees to a session which could determine their career path. A panel of clinical leaders will outline their career paths, the choices that shaped them and tell you how they got to where they are, with an open forum for questions. This may be the session that changes your future!</p> <p>Panel: Prof Liz Elliott, Dr Yvonne Bonomo, Dr Harvey Graham and Dr Michael Dickinson (Facilitator)</p>	<p><b>RACP Trainee Research Award Presentations</b> (Adult Medicine Finalists)</p> <p>Dr Andrew Chan, NSW                  Dr Steven Lane, Qld                  Dr Tim Kleinig, SA                  Dr Steven Ng, Vic                  Dr Patrick Gladding, NZ                  Dr Maya Latimer, ACT</p> <p>Chair: A/Prof John Kolbe</p>	<p><b>Informed Patient Consent</b>                  Presented by The Medical Defence Association of Victoria</p> <p>Informed consent is becoming increasingly important in the area of medical litigation. Informed consent is a particularly high risk area for medical practitioners, across all specialties. Informed consent means more than the passing on of information; it needs to include a well-balanced discussion of the benefits and risks regarding the particular treatment or procedure, to assist patients in their decision making. The informed consent process may reduce the risk of a claim or complaint against the medical practitioner from the patient, should the outcome of the treatment be contrary to the patient's expectation.</p> <p>Ms Therese Carroll</p> <p>Chair: Mr Gary Disher</p>
12.00 – 1.00	<p>LUNCH                  Trade Exhibition (including Speakers' Corner)                  ANNUAL GENERAL MEETING (12.30 to 1.00)</p>			

<p>1.00 – 3.00</p>	<p><b>E-health – helping physicians in their patient care</b></p> <p>Ms Dominique Collins: Online clinical resources Dr Steven Bollipo: E-gadgets for physicians Dr Bob Webb: E-Health - safety and quality Dr Terry Hannan: Electronic medical records, not such a ‘shocking experience’</p> <p>Chair: Dr Les Bolitho</p>	<p><b>Skilling the Next Generation: The New RACP Training Curricula - a practical workshop</b></p> <p>Workplace based teaching, learning and assessment of the Professional Qualities and Basic Training curriculum</p> <p>Prof Kevin Forsyth and Mr Tony Rigley</p>	<p><b>Effective Leadership &amp; Team Management (1.00-2.00)</b> Mr Jon Isaacs</p> <p>Executive leaders realize that they are not only responsible for the performance of the teams they lead, but they are also responsible for the collective running of the organisation as a whole, along with their peers and their own line manager, often the CEO.</p> <p>Critical to the success of any team are the range of operating styles of the team members, the in-team behaviours of the team members and the team processes.</p> <p>The senior executive team is a model for the whole organization in setting and embodying values.</p> <p>The presentation will identify a range of operating styles, give examples of typical in-team behaviours and explain the elements of optimal team processes, including the establishment of a team charter and meeting agenda.</p> <p>Attendees should expect a highly interactive session.</p> <p>Chair: Mr Gary Disher</p> <hr/> <p><b>RACP Trainee Research Award Presentations (Paediatric Finalists) (2.00-3.00)</b></p> <p>Dr Davinder Singh-Grewal, NSW Dr Luke Jardine, Qld Dr Alexia Pena, SA Dr Steven Resnick, WA</p>	<p><b>Evidence-Based Medicine: Appraisal of published papers – how to do it IN REAL TIME</b></p> <p>This workshop will focus on improving your skills of critical appraisal. The session will be interactive, in which you will appraise a clinical research paper in a small group setting, with the assistance of a facilitator skilled in teaching EBM. The small group activity will follow a short, didactic presentation on EBM and critical appraisal. You will be supplied with an appropriate research publication and the relevant critical appraisal checklist at the session.</p> <p>Prof Craig Mellis Dr Peter Greenberg: Critical Dr Renata Kukuruzovic Dr Lynden Roberts</p>
