

The Royal Australasian
College of Physicians

Adult Medicine Division

4 December 2007

**TO: ADVANCED TRAINEES (ADULT MEDICINE DIVISION)
 DIRECTORS OF PHYSICIAN TRAINING
 SUPERVISORS**

Dear Trainees and Colleagues

The Best of Grand Rounds
2008 RACP Congress – 13-14 May 2008, Adelaide

At the Adult Medicine Division we are hard at work preparing for the Adult Medicine scientific program at the 2008 College Congress. The program is being designed to appeal to Fellows and Trainees alike, and once again we are including case presentations by Advanced Trainees – *The Best of Grand Rounds*.

In the past two years the case presentations have been a successful part of our program. They have generated considerable audience interest and participation, and we have had the opportunity to hear some outstanding presentations by representatives of the next generation of physicians.

I again invite Advanced Trainees to consider submitting a case for consideration by the selection panel, perhaps one that has recently been presented in Grand Rounds. I hope that DPTs and Supervisors will encourage and support trainees to do so.

Further information and instructions for submission of cases is attached. Please note that the deadline for submission of initial abstracts is **Thursday, 24 January 2008**. Full instructions for the submission of abstracts can be found at the Congress website: <http://www.racpcongress.com/>. Program information will shortly be added to the site.

Kind regards

Yours sincerely

Assoc. Professor Michael Hooper
Convenor, Adult Medicine Scientific Program
